These amount to \$33.70. I note that for over \$10.00 you give a 10% discount. If possible, could you give me a better discount? Also let me know whether you will accept the Society's check on our bank in New York or shall I have a check drawn up on a Mexico City bank? You can let me know the exact amount that you will take for the coins ordered and I will send you a check. I much prefer to draw a check on our own bank here in New York.

Mr. Howard Wood, Curator,
The American Numismatic Society,
New York, N. Y.

Dear Sir:-

In reply to your letter of August 19th, please note that I am herewith enclosing two cardboard coin holders, with the following coins:

#35	\$2.00	#111	\$0.50
54a	1.00	118	.50
65	1.00	121	5.00
73	6.00	122	2.00
73b	6.00	133	1.00
103	1.00	137	3.00
	<u>\$17.00</u>		<u>\$12.00</u>

\$29.00 altogether, less 10% (\$2.90).....\$26.10, for which you can send me your check on New York to cover.

I regret to say that a few days before the receipt of your letter I received an order, among which coins I had to send some of the numbers you wanted, like for instance #50, 95, 96, 102, 112, 130 and 131. But I expect to get these numbers very soon and will forward same to you.

You sent me 102
In this connection please pardon me for sending #103, instead of #102. If you do not need #103, please hold it there at my disposal, and I will try to send you #102 at an early date.

I expect to get one or two specimens of #119, 121b (10¢ C.M.), 119b (5¢ Gro. 1917) and 123, as well as 126, 124, 135 and 136. These are all of the hard-to-get kind. If you are interested please advise, so that I can quote you prices.

Am sending you rubbing of new variety of 5 cents Chihuahua. I have only seen one specimen in Mexico City and they do not want to sell it at any price. However, it is interesting for you to know about it. I also expect to get some other interesting coins, and I will advise you in due course.

Thanking you for your order, I am,

Very truly yours,

Dear Sir:

The Mexican Revolutionary coins came safely and I am herewith sending you the Society's check for \$26.10. If you later get any of the other numbers desired, please send them on.

You sent me No. 102 and not No. 103 so this matter is all right. If later on you get 121B, 119B, 123, 124, 135 and 136, I would be glad to know the prices. I would appreciate it very much if when you get a new specimen not mentioned in my book you could send me a nice rubbing of it, although it is very doubtful if I get out a third edition. It is, as you may know, quite difficult for me way up here to always get in touch with all of the new varieties, although I have many friends helping me, also any additional information concerning the pieces or the correction of errors on my part would be much appreciated.

Could you sell any of my books? I could let you have them at \$2.00 each; they sell for \$2.50. I beg to thank you for your attention and remain

Mr. Howland Wood, Curator,
The American Numismatic Society,
New York, N. Y.

Dear Sir:-

Thanks for your letter of Sept. 9th, enclosing
check for \$26.10.

Within a few days I expect to send you some of
the coins ordered in your previous letter, such as 95 and 96,
and perhaps some of the others. Will write you soon about
this.

With regard to the coins you desire to get, will
say that just now I have one specimen each of the following:
U.S.Cy.

121b	(not in very good condition)5.00
123	Fine condition 8.00
135	" " 8.00
136	" " 8.00

I expect to get 119b and 124 shortly, their price will be \$8.00
and \$10.00, respectively. By the time you get this letter I ex-
pect to have these coins on hand.

With regard to non catalogued coins, please note
that I have seen lately several new varieties, as follows.
I expect shortly to be able to send you rubbings of same.

81a Silver, obv. 81, rev. instead of
(Co.Mo.)SURIANA.
123a Copper, 3 centavos, probably made
in Campo Morado judging from the
workmanship. Same size as 5¢ C.M.(121)
153a Copper Obv. bust of Juarez same as in 178,
rev. same as 153. (Probably sample).
156 \$2. instead of "un peso), same size and
everything, except \$2.00.
158 copper.
157 copper.

I have now on hand 75, 93, 104, 123, 158 copper,
151a dif. variety, 161 obv.144 rev.161, 111a period after Gro. and 179.

Awaiting to hear from you, I am,

Yours very truly,

P.S. I think I can use
about 6 of your books.
Will advise later how to
send them.

Dear Sir:

Your letter at hand. I would be glad to have you send on any of the coins you were unable to supply in your last consignment, together with 121B, 123, 135 136 and any others that you expect to get shortly. Many thanks for the information concerning the pieces not mentioned in my book. I have seen a rubbing of the silver coin with the word "Suriana" on it. I would be glad to send some of my books on further advice from you. I remain

Mr. Howland Wood, Curator,
The American Numismatic Society,
New York, N. Y.

Dear Sir:-

Your letter of Sept. 30th, with check for \$28.80,
was duly received. Thanks.

I am preparing for you a little brief containing
some of the latest information I have been able to gather
about the Mexican Revolutionary Coins, which I know will be
of interest to you.

Offhand I take pleasure in advising you that I
have been able to locate where Nos. 138/140, were made. The
initials at the bottom of 140 confirm the information, that
is A. D. J. which stand for Ameca de Juarez, a town located
about 80 or 90 kilometers (50 or 60 miles) from Mexico City.
They were made by orders of General Trinidad Sánchez Tenorio,
late in the year 1915 and the beginning of 1916. The dies were
made by Francisco Ponce, a mechanic employed at present for the
San Rafael & Atlixco Railroad in Mexico City. They were not very
long in circulation and are somewhat scarce. I will give you
some more details in the brief which I am preparing for you.

I have at present and can offer you the following
coins:

138	Copper, very thin.	\$2.00
"	" medium.	1.00
"	" very thick.	3.00
138a	" different die (larger eagle).	5.00
138h	copper on one side and a thin planchet of brass on the other side. Rare.	5.00
139a	Brass (very good condition) ..(rare)...	8.00
140	copper very thick,	2.00
140	brass and copper,	3.00
141	brass (not in very good condition) Rare.	8.00
141a	" (same size as 142, same thickness))only one known)	12.00
#79	12.00
✓ #93	with date upside down	4.00

I now also have #112 (brass) and #124, which I will
forward as soon as I hear from you about the above mentioned coins.

Hoping to hear from you at an early date, I am,
Yours very truly,

A. Frank

Please advise if you are
interested in any particular
coins, so as to be on the lookout.

Mr. A. Frank
Apartado 901

Dear Sir:

I wish to thank you very much for the information concerning those A. D. J. coins. It might interest you to know that I became interested in this revolutionary series when I got hold of some of the Binaloa coins, my Nos. 1, 2 and 3, in June 1914 and all of the information for the next two or three years was what I could get hold of from Americans returning from Mexico, some of whom had a few pieces from different states. Dr. Landa is about the only one in Mexico who could give me much information.

Do you know of a Dr. Aguerrez - I think that is his name? I have written him many times but have never received an answer from him.

I would be glad to have you send up from your list, No. 93 (with date upside down), 112 brass and 124; also any of the Durango lead pieces you may have.. These I would want to look at carefully, as I am suspicious of some of these. I was thinking I had all three of the Pueblo issue; the one I described as the large size ending in "Pu" and the small size ending in "Pue", which you call 73B. Therefore, I think it is 73A I want. I beg to remain

Very truly yours,

Dear Sir:-

I availed myself yesterday of the opportunity of a friend of mine going to Brownsville by 'plane, to send you an Express package from Brownsville containing some of the coins mentioned in your last letter, as follows:

#93, date upside down,	\$ 4.00
#73-A	6.00
#50 (broken die)20
112, Br. S.	2.00
Six varieties of 1¢ lead ones ..	
State of Durango, .at \$2. ea.	12.00

	<hr/>
	\$ 25.20
Less 10%	2.52
Total ...	<hr/>
	\$ 22.68

No. 124 I regret to say was ordered by another collector a few days prior to the receipt of your letter. There seems to be quite a demand for that particular coin. I expect to get another one shortly and that one I will surely reserve for you. Sorry not to be able to send it along just now.

As previously stated in a former letter, I am gathering quite some information regarding these coins, which I will forward to you at an early date.

Yours truly,

A Frank

I know Dr. Arguelles very well. He is one of the leading collectors of Mexican old and revolutionary coins. Unfortunately he is of a very slow going nature and leaves everything for tomorrow, which means never. That accounts for his not having answered your letters. Otherwise he is a fine gentleman and very obliging in every way.

Mr. A. Frank
Apartado 901
Mexico, D. F.

Dear Sir:

Your letter came the other day and the coins reached here today. I was very glad to get certain of these. Unfortunately for both of us I am returning four of the pieces; two of the lead ones, one I had already bought from you and the other is a worn impression of No. 32. The specimen of this you had included in this lot. You can tell 30 from 31 because the 1 is placed differently over the "en" of cent. Both the No. 40 and 42 that you sent on are varieties of my numbers. The No. 50 I have already; this is not "50" but 49. The No. 93 with date up-side-down I have examined very closely and feel that it is simply a freak. The reverse is double struck, which shows especially at the top and is therefore not a die variety. These four coins I am returning.

I am enclosing a check for \$15.30 which covers the seven coins that I am keeping. I think it might be well if I should give you a list of those coins that we have here for your files; numbers according to my last book.

Years ago, I heard from one or two sources that the Diaz forces in the mountains about Oaxaca made some crude gold coins. Some said they were rectangular. I have never been able to find out anything about these. Did you ever hear of them?

Have you got the following three men on your list? They might be interested.

Dear Sir:-

It affords me pleasure to advise you that a local friend of mine has the rarest of the Mexican revolutionary coins: a twenty pesos gold coin, same design as #12, of your 1928 book. It is in perfect uncirculated condition, and only one of them is known. Of course, he wants a rather large sum for it, but considering that it is a handsome piece, I thought of advising you immediately. He wants \$800.00 (eight hundred dollars) for it and I think it is worth every bit of it. However, there may be a chance to make a small reduction, but as several Mexican local collectors are desirous of purchasing it, would appreciate if possible a telegraphic authorization to purchase it. I have an option of five days and in spite of the fact that several other American collectors of Revolutionary coins are nearer, for instance Mr. Hill, Mr. Pradeau, of Los Angeles and Mr. Hoffecker, of El Paso, I want you to know about this rare opportunity, and perhaps there will no time to offer it afterwards to anybody else, as the local collectors most probably will be raising their prices.

Let me hear from you by telegraph, and kindly send your wire to

Dear Sir:

I wish to thank you very much for notifying me of the chance to buy the 20 peso gold coin. It is certainly the rarest of the Mexican Revolutionary coins. We certainly do not have the money to buy this, although I would very much like to see it in our collection. You state it is the same design as No. 12 in my book. Could it by any chance be No. 17? I only had a vague description of it. Sometime I would like to get a fuller description for my notes.

Very truly yours,

Mexico, D. F.

Dear Mr. Frank:

I have just received the Historical Notes - The Coins of the Mexican Revolution - and I wish to thank both you and Mr. Garza for sending me the copy. Also, I wish to congratulate and compliment both of you for this publication. I have read most of it but as yet have not checked it up. I feel certain it is the last word on the subject but I know from my experience that you will keep finding new pieces. I am sorry the illustrations in some cases did not come out better. The copy you sent me had several pages in the wrong order but I think I can fix this right by rebinding it. I am enclosing \$1.00 as I would very much like to have another copy for the Society's library as I wish to keep this copy you sent for my own personal use.

Very truly yours,

You should order at once the booklet written in Spanish by Mr. J. S. Garza and translated by the undersigned, entitled "HISTORY OF THE MEXICAN REVOLUTIONARY COINS". Price.....\$1.00.

During the last ten years Mr. Garza has been recognized in this country as the leading authority on the coins of the Mexican Revolution. He has visited all the towns and villages where coins were made, and interviewed many of the Generals and officers who in some way or other had connection with the coinage of that period, obtaining very interesting information from these sources. Quite a number of new coins which are not mentioned in Mr. Wood's 1928 "Numismatic Notes & Monographs" are illustrated in this booklet. After reading these notes you will easily realize why most of these coins are so scarce and why within a few years they will be worth ten times more than their present value.

Dear Sir:

I have not received as yet the coins ordered a short while ago but I suppose they will arrive any time now. I would like to ask the following questions.

What coins are now in circulation in Mexico? Also, what coins has the mint struck during the last five years? I would like to get examples of any made during this period.

Very truly yours,

Dear Mr. Wood:-

I was very sick for a long time and only about two months ago I recovered sufficiently to be able to get busy again in coin matters. Therefore, please forgive me for my long silence, especially for not answering in due course your letter of November 18.

Of course, just as you very wisely told me some time, every once in a while something new comes up. My latest discoveries in the revolutionary coin field, are as follows:-

12c. Twenty pesos. Muera Huerta. Copper.

Please advise me if you are still interested in the coins ordered in your letter of Nov. 18. I happen to have in stock 53-a and most of the others therein mentioned.

I also have 162 and 167, in case you need them.

Yours very truly,

A Frank.

Dear Mr. Frank:

Your letter of September 11th just at hand and I would be very glad to have you send any that you might have on my list of November 18th, with the exception of 53a which I find that I have. I had it listed in our collection as 51a on account of the obverse. If you have 57a I would like that piece.

I am sorry to know that you have been sick; both Mr. Boyd and I have wondered what had become of you.

I would also like to get any of the coins struck in Mexico in the last three or four years. I would only like these in nice condition. I wish to thank you for the notations concerning some of your new finds. I am still looking for a specimen of No. 180, if not too high priced.

Very truly yours,
